

Creative Steel Solutions Ltd

Providers of bespoke designs to meet the needs of modern architecture. Practical or aesthetic, and direct from the manufacturer. Creative Steel Solutions can provide the ideal architectural solution for any budget.

Creative Steel Solutions Ltd
A Lifting Solutions Group Company

Creative Steel Solutions is the company that can transform your architectural ideas and inspirations into practical and effective solutions to enhance your projects and developments.

Balustrades

Crafted from materials including steel, aluminium, stainless steel and stainless steel swaged wire rope products, CSS can design and manufacture bespoke systems for both practical and aesthetically pleasing applications. Aided by the latest computer technology, we can design and manufacture to the highest standards, supported by an equally professional installation service.

Staircases

The Staircase can often be the focal point of any eye catching development. CSS can again manufacture in stainless steel, or steel with a range of coatings to create the desired finish for any project. Our team can design your staircase or simply manufacture to your design. Our on-site installation service is available for all products.

Juliet Balconies

The visual beauty of a Juliet Balcony can often transform the external appearance of any building. As with all our products CSS offers a full design, manufacture and installation service. Alternatively, balconies can be expertly manufactured to customer specification either for practical use or simply to enhance the visual appearance of a building.

Railings & Fences

When there is a requirement for a boundary fence, we offer attractive and complimentary solutions to suit. These can be made secure, and again can be made from materials of your choice. They can be a mix of steel and wood and be coated with the finish of your choice.

Mission Statement

To achieve perfection by making innovative architectural visions become a reality utilising modern design techniques, quality materials and years of experienced craftsmanship.
