

Smoking Solutions

Bespoke designs or off the shelf structures to meet regulations and the smoking needs of any premises. Direct from the manufacturer, CSS offer the ideal solution for any budget.

Creative Steel Solutions Ltd A Lifting Solutions Group Company

WITH the introduction of a total Smoking ban in all work and public places in the UK, providing staff, and visitors with a designated, covered, smoking area not only provides a compromise for smokers but also allows you to regulate where and when people smoke whilst allowing you to control the associated litter problems.

Supported by over 30 years experience in engineering, Creative Steel Solutions are able to offer a comprehensive end to end solution from design to installation of either our standard or bespoke smoking shelters and canopies. Our shelters are guaranteed to be compliant with UK regulations. Manufactured at our Rotherham facility, CSS can offer solutions to suit any budget to include delivery and installation to any mainland UK location.

STANDARD SOLUTIONS

Our standard smoking shelter, constructed from steel and polycarbonate is modular and sections can simply be added to extend the structure's size. Available in a range of finish options, our shelters represent excellent value for money to suit many workplace applications, including, factories, offices, and government buildings. A range of stainless steel bins, ashtrays and fixed bench style seats can also be supplied.

BESPOKE SOLUTIONS.

If the shelter requires a more aesthetically pleasing appearance, CSS can offer an unparalleled design service where we will work closely with the customer to ensure that we provide the right individual solution. A range of materials, including stainless steel is available for this range. Whether a simple wall mounted canopy, or more sophisticated look is required, CSS can provide the solution.

Mission Statement

To achieve perfection by making innovative architectural visions become a reality utilising modern design techniques, quality materials and years of experienced craftsmanship.
